

CR-3600
corrosion protectant

CR-3600 is a non-toxic solution that helps industrial and paving equipment last longer

CR-3600 is a release agent for any wood, metal, or fiberglass form. It prevents corrosion during storage after a surface is exposed to corrosive salts or other harsh materials. Extend the life of equipment and save money by avoiding replacement.

93% biobased

- ✓ Does NOT contain petroleum or silicones
- ✓ Biodegradable and non-toxic
- ✓ Works on all metals
- ✓ Easy application with spray or brush
- ✓ Safe on electronics, plastics and rubber formulations, including gaskets
- ✓ Prevents rust with regular use
- ✓ Works in all temperatures and doesn't thicken when cold

Keeps equipment working

When applied as a part of a periodic maintenance program, CR-3600 can reduce the cost of repair and replacement expenses for your equipment. Extend the longevity of your investments with CR-3600 with this 93% biobased solution that is safe for the people and the planet.
